Work Experience

Assistansia

"Paid by the hour"

- Been working since the first of may, 2007 as a personal assistant for a young girl with spina bifida cystica (myelomeningocele). I assist and spend time with her when needed. Mainly during holidays.

Prometheus - Make something Unreal

- A Final Phase submission for Epic's 1 million dollar "Make Something Unreal" challenge. I was brought in to the Prometheus project to complete a range of high quality - short timeframe props and assets of consistent design and style, to compliment the already-established art direction the project had developed.

Activities and Interests

Games

A great passion for playing and modding games. Aswell as producing game-art.

Webdesign

Might not be the best, but it's a fun hobby, designed my own portfolio for example.

Graphic Design

I enjoy designing digital graphic art such as posters, leaflets etc.

Multimedia

I enjoy and have been educated in multimedia, which would include writing actionscripts, editing/recoring audio, photography, animation, video and interactivity, those sort of things.
